## **Long Island Bed Bug Inspections**

DBA: NYC Bed Bug Inspection Dogs and Green Pro Pest Control

### **K9 Bed Bug Inspection Checklist**

**Prior to your bed bug inspection, you must prepare any space that will be inspected. Please make sure to follow the checklist below, so that we can provide you with the most effective bed bug inspection.**

- NO pesticides can be used **30 days prior** to any K9 inspection. If an application has been done, please inform us immediately.
- You **MUST** vacuum all floors and furniture thoroughly.
- Extinguish all smoking materials **at least 2 hours prior** to the inspection.
- Close all windows and outside doors. There must not be any air drafts for at least 2 hours prior to our K9 inspection.
- Turn off all A/C units, oscillating fans, exhaust fans and ceiling fans **at least 30 minutes prior** to our K9 inspection.
- Remove ALL pets from the building or immediate search area at least 30 minutes before K9 inspection (including, but not limited to

all dogs, cats, rabbits, birds, hamsters, gerbils, guinea pigs and ferrets, etc.)

- Place all pet food, water, and/or pet toys in a non-accessible area. Remove any potpourri, deodorizers, or air fresheners **at least 2 hours prior** to our K9 inspection.
- All areas must be free of clutter. Our team must have clear, unobstructed access to search areas and ALL furniture (beds, couches, dining sets, chairs, dressers, etc.)
- There must not be any major noise or human distractions. If you are present during the inspection, you may be asked to stand in another room or out of the immediate search area.
- If there are any spilled pills, syringes or any type of medication in the search area, our K9 team may refuse to continue the inspection until the items have been removed.

Please feel free to reach out and contact us should you have any questions!
